### Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any one of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

### Gives up to Refute Rumors

Boonville, Mo., Oct. 14.—George Maddex, who found the body of his wife, with the throat cut from ear to ear, in the barn on the farm C. E. Leonard, president of the Central National bank of Boonville Mo., of which Maddex is a tenant, gave himself up to the authorities today, and asked for an opportunity to refute the rumors using his name in connection with the murder of his wife, September 29.

W. F. Johnson, prosecuting attorney, who is using every effort to clear up the mystery of the murder, does not charge any one with having committed the crime and will not until evidence is found which he believes sufficient to convict. A shirt and hat worn by Maddex the day of the murder, which were soiled by apparent blood stains, were sent to Chicago for analysis to ascertain if the spots are human or animal blood stains. Maddex claims he wore these clothes while butchering hogs on the farm and were a little blood stained, although it is said, the shirt has been washed since the crime was committed.

Maddex brought a pair of trousers and a vest voluntarily to Boonville, leaving them with the prosecuting attorney for examination. Maddex gives a clear account of where he was during the time of the murder as fixed by the coroner and jury, and it would have been impossible for him to have committed the crime, if, as agreed by the coroner's jury, Mrs. Maddex died about 11 a. m. At that time Maddex was in a field with other tenants of the farm.

Detectives still are at work on the case, but whether the mystery is any nearer solution than it was two weeks ago it is hard to say. Rumors have been circulated that a woman committed the crime as Mrs. Maddex had clenched in her hand a bunch of woman's hair, but it virtually has been settled in her struggles she pulled the hair from her own head. No rewards have been offered for the apprehension of murderers, either by the authorities or by individuals, so far as known. Maddex was accompanied on the trip to give himself up by his father, John S. Maddex.

The story is told that a certain woman was reading the matrimonial columns of a paper and remarked to her husband: "Here's a strange coincidence—a Wm. Strang marries a Martha Strange." "Strange indeed," remarked her husband, "but I expect the next news will be a little stranger."
